PROFESSIONAL SUMMARY

Higher Vocational Diploma holder in Web Application Development with hands-on experience in **QA automation**, **SAP functional testing** and backend development. Trained in **Selenium (Maven), Java and Cucumber (BDD)** and in **Tricentis Tosca** on a live SAP project, with test case management in **qTest** and process automation with **UiPath**. Solid foundation in **PHP, Python and SQL**, Agile methodologies (**Scrum**), training in **AI-assisted development**, and one year of work experience in the Netherlands. Seeking a Junior / Entry-Level / Trainee role in QA automation or software development to keep growing in technology consulting projects.

TECHNICAL SKILLS

- **Testing & QA:** Selenium (Java) · Cucumber (BDD) · Tricentis Tosca · SAP Testing (functional & automation) · qTest · Postman
- **RPA & Cloud:** UiPath Studio · AWS (EC2)
- **Development & Backend:** PHP (Laravel, Symfony) · Python · Java · JavaScript · SQL / MySQL · REST APIs · Git
- **Frontend & CMS:** HTML5 · CSS3 · Responsive design · WordPress (Elementor Pro)
- **ERP & E-commerce:** Odoo · Magento
- **Methodologies & AI:** Scrum / Agile · AI-assisted development · Problem solving · Teamwork · Customer focus

PROFESSIONAL EXPERIENCE

SAP Testing (QA Automation & Functional) — Internship — DXC Technology **03/2026 – 06/2026**

- Intensive training in Tricentis Tosca applied to a live SAP project, with test case management in qTest.
- Built own automation scripts with Selenium (Maven), Java and Cucumber (BDD) as part of the technical training.
- Automated workflows with UiPath Studio (RPA) and supported the IT team in resolving technical incidents.

Technologies: *Tricentis Tosca, qTest, SAP, Selenium, Maven, Java, Cucumber, UiPath*

Odoo Technical & Functional Consultant (Jr.) — Fixed-term cover contract — Maxmovil **07/2025 – 10/2025**

- Developed features and Odoo–Magento integrations using Python, PHP (Laravel/Symfony) and SQL.
- Managed APIs and provided AWS (EC2) support; resolved technical incidents and optimised ERP processes.

Technologies: *Odoo, Magento, Python, PHP (Laravel/Symfony), SQL, REST APIs, AWS EC2*

Full Stack Web Developer Jr — Homia – Digital Marketing **12/2024 – 03/2025**

- Built custom websites with PHP/Laravel, JavaScript, HTML5 and CSS3; advanced WordPress builds (Elementor Pro).
- Created responsive layouts and optimised user interfaces (UX/UI) focused on user experience.

Technologies: *PHP, Laravel, JavaScript, HTML5, CSS3, WordPress, Elementor Pro*

ADDITIONAL EXPERIENCE

Logistics Associate — International Flex Job – Netherlands **12/2021 – 08/2022**

- Managed stock, inventory and order coordination in multicultural environments, with daily communication in English.

Store Manager / Logistics & Training — Reina Suiza CBD – Spain **04/2019 – 02/2021**

- End-to-end store management, team leadership and optimisation of internal sales processes.
